BASIC POLICY FOR THE ENVIRONMENT

Toshiba Tec Group's Basic Policy

We, the Toshiba Tec Group, as a global enterprise, contribute to society by reducing our customers' and our environmental impacts through "Monozukuri" or by creating environmentally conscious products.

We practice global sustainability with the aim of realising a low-carbon, recycling-based and natural symbiosis society by seeking a combination of business and environmental activities, in order to hand down to our next generation, the health of the global environment as an irreplaceable asset.

With Greening of Products, Greening of Process and Green Management as important pillars of environmental management, the Toshiba Tec Group is actively driving environmental protection, to contribute to the reduction of environmental impacts in business fields such as stores and offices.

Greening of Products

- The Toshiba Tec Group pursues the highest level of Environmental performance of our products, then, aim at creating excellent environmental-conscious products (ECPs) and a wide acceptance in the market.
- The Toshiba Tec Group reduces environmental impacts throughout its product life-cycle through green procurement of environmentally conscious materials and parts, 3Rs, energy conservation, and abolition of certain chemical substances, in order to provide ECPs on a global basis.
- The Toshiba Tec Group advances distribution of ECPs and services, to contribute to the reduction of environmental impacts of the products or services when used by customers.
- The Toshiba Tec Group contributes to the establishment of a recycling-based society, while collecting and recycling end-of-use products and reusing end-of-use parts.

Greening of Process

- The Toshiba Tec Group strives toward resource and energy conservation, as well as correct control of chemical substances, for environmentally conscious manufacturing, marketing and servicing, allowing for regional characteristics.
- The Toshiba Tec Group aims at realising a low-carbon society through "Monozukuri," by creating ECPs and by improving the efficiency of logistics operations.
